Occupation or position held	EXTERNAL EXPERT AND LAB MANAGER
Main activities and responsibilities	R&D Lab & Project Manager for LEKS (laboratory of enterprise knowledge and system); Expert within the INTEROP-VLAB.IT , the European Virtual Lab on Enterprise Interoperability that is part of the INTEROP-VLAB.EU. In such role he had an interesting experiences in the Knowledge Management (particularly in Ontology based tech.). He collaborated in the ATHENA, INTEROP EC projects. In INTEROP (Interoperability research for networked enterprises applications and software) (IST-2002-2.3.1.9 - 508011) Networks of Excellence he worked on the Enterprise Interoperability. World-class competitiveness of European Enterprises, including SMEs, strongly depends, in the future, on their ability to concretize massively and rapidly networked dynamic organizations. New Technologies for Interoperability within and between enterprises, have to emerge to radically solve the recurrent difficulties - largely due to the lack of conceptual approaches - encountered to structure and interlink enterprises' systems (information, production, decision).
Name and address of employer	CNR-IASI (ISTITUTO DI ANALISI DEI SISTEMI INFORMATICA "A.RUBERTI")
Dates	2005 - June 2008
Occupation or position held	ICT INTERNAL AUDITOR and SENIOR OFFICER at BANCA ANTONVENETA ABN AMRO
Main activities and responsibilities	Internal Auditor in charge for Information System and Electronic Payment Systems . In such position he developed a very strong knowledge and expertise in the e-payments, m-payments, SEPA (Single Euro Payments Area) and PSD (Payment Services Directive 1 and 2) areas. As Internal Auditor he gained strong knowledge also in the digital financial services as well as in the e-payments, m-payments and e-commerce products and market.
Name and address of employer	BANCA ANTONVENETA ABN AMRO
Type of business or sector	Finace and ICT
Dates	1997 - 2005
Occupation or position held	SENIOR OFFICER (DIRECTOR)
Main activities and responsibilities	Responsible of digital innovation towards e-finance (e-banking, e/m-payments, smart cards, e-money, e-security). In this period he has gained a very strong knowledge in the financial digital services and e-commerce market . He has been also responsible of the innovation through the EC programs (5 th and 6 th FP and IST) participation. In particular, he has been Project Coordinator of FP6-IST-METEORE2000 (open micro-payment system for m/e-contents). The METEORE project (European project IST-29601) is a new approach to third generation solutions, taking advantage of the existing products available on the market. We

define a generic framework to embed core e-payment and m-payment systems, the shell being dedicated to interoperability of the core system with mobile networks and other systems of the same model. Interoperability is thus managed in two ways. The unified access for fixed and mobile Internet is typically used in the so-called "Mobility Portals". The project has involved 7 EU Organizations, Telcos, Banks and Universities coming from 4 different EU Countries.

Among the other assignments, he participated also in two Venture Capital Initiatives (one in Italy, in Veneto region, and another in USA, in collaboration with Telecom Italia, now TIM, and others Partners) evaluating (conducting also innovation due diligence) for the bank and the VC funds out of the standing SMEs and others strongly innovative EU and USA companies. He collaborate also, as Banking expert, within M&A initiatives in the ICT sector in Italy and Europe.

Name and address of employer

BANCA ANTONVENETA – ABN AMRO GROUP
